

Green Fields Nursery School

NEWSLETTER

Spring-Autumn 2023-2024

Dear Parents,

Message.....

Welcome to Green Fields Nursery School. As Headmistress, I draw upon my many years of educational experience, both as an educator and an administrator and the support of an amazing staff of caring, talented educators, to create a unique educational environment, specially tailored for our youngest scholars.

Green Fields Nursery School is at the forefront of early childhood educational development. Our learning environment creatively meets the specific needs of each child, while allowing all students to come together for a cross-cultural experience that develops their social skills and teaches them how to build friendships. We provide a happy and safe environment within which our students can experience opportunities inside the classroom and beyond. We foster values of courtesy, consideration, and individual responsibility, and provide both challenge and support for our little ones. With gentle care, we help shape their young minds to be ready for the world that is waiting to meet them.

The achievement of our students is built upon the partnership between students, parents, and teachers. Through quality teaching, student support, and our commitment to extra-curricular activities, we create the building blocks for success that will give them an advantage in their later years. I firmly believe that with the excellent teaching staff, we have the ability to ensure that your child achieves his or her very best. Like other academic years, this year also went by in jiffy. Today I close the doors to the past, open the doors to the future. Take a deep breath, step on through and start a new chapter in your life.

Mrs Shilpa Puranik
Headmistress

A RECIPE FOR LEARNING

In a large bowl combine...

One cup of **CURIOSITY**, I am a child. I am naturally curious.

A dash of **RELEVANCE**,

I learn best when what I am learning is meaningful to my own experiences of the world.

A good amount of **VARIETY**,

I like to learn in lots of different ways.

A pint of **INTEREST**, I am most motivated to learn when I am interested in what I am doing and learning.

A smidgen of **PURPOSE**, I like you to know that I am helpful.

A litre of **PROBLEM SOLVING**,

To really get me thinking.

A heaped teaspoon of **ACTIVE DOING**,

As it is through active interaction with objects, people and places that I acquire knowledge.

And a large spoon of **PLAYFUL FUN!**

Stir together with **FRIENDS** to learn alongside. Sharing with others helps to reinforce my own learning.

Add an **INTERESTED ADULT** to guide and pose challenges

that push my thinking further.

And bake together with **TIME** to explore, experience, grow and mature.

-Rachana Singh

STEM ACTIVITIES

Children's curiosity is stimulated by engaging them in enjoyable learning experiences through the kindergarten curriculum at GFNS. Early exposure to STEM activities, enhances child's development and fosters their capacity for critical thinking and reasoning. Children develop their problem-solving abilities and are encouraged to explore at GFNS during STEM activities. Also we at GFNS integrate STEM activities with hands-on learning which stimulates creativity.

STEPPING INTO NEW WORLD

Celebrate endings — for they precede new beginnings. "As we are not the same children who were entrusted to your care last year. We have grown in more ways than one - physically, mentally, and emotionally. We have gained weight, grown taller, and become wiser and more responsible. Throughout this year, we have had the pleasure and privilege of witnessing our personalities unfold day by day. Spending ten months together in a classroom has brought us closer and created a special bond between us. We have shared countless moments of joy, laughter, play, study, and learning, all of which have enriched our lives. Although we wish this journey could continue indefinitely, we understand that it is time for us to grow up and move on. We are proud little graduates who have mastered our ABC's and numbers! We have made numerous friends and had an abundance of fun. Please know that we will always carry the memories of our teachers and their teachings with us on our life journeys, no matter where we go or what we do. Regardless of the passing years or the changes we undergo, our hearts will forever consider you as our own. Now, we embark on a new adventure as we head off to big kids school.

-Shelly Nag

Today

I close the door to the past, open the door to the future, take a deep breath, step on through and start a new chapter in my life.

FOND MEMORIES - CELEBRATIONS

To celebrate a festival means; to live out, for some special occasion and in an uncommon manner, the universal assent to the words as a whole. Festivals pass the legends, knowledge and traditions onto the next generation. They are an expressive way to celebrate glorious heritage, culture and traditions. School plays an important role in imbuing the values and culture among the children through the festivals. We at Green Fields Nursery School believe in celebrating national as well as religious festivals. Celebrating a festival in school with friends is more fun. Festivals foster cultural appreciation and teach social awareness beyond textbooks

FIELD TRIPS

Field trips are an opportunity to enter into a world of "mystical power". Field trips are powerful learning experience but it is easy for them to pass quickly. To maximize the learning, we at GFNS do a thoughtful work before and after the trips. In Dec'23, field trip to 'Post-Office' and Fire Station' was arranged to familiarize children with their neighbourhood. In the month of Feb'24, a trip to 'Rail Museum' was organised. Giggles & excitement filled the air as our students stepped into the fascinating world of trains at the railway museum. They experienced a sense of time travel as they handled antique tools and turned levers.

GREATEST POSSESSION- HEALTH

"A healthy body and healthy mind is a route to success in life"

All the teachers and students of Green Fields Nursery School participated in a health camp.

Dr. Raavi's Asparagus, led by a group of committed medical professionals organised the camp, which included fitness exercises and general physical check-up. Every student received the necessary medical advice.

OUR ACHIEVERS

"Achievers are not born talented, but they possess the, 'I can do it' attitude"

Our toddlers have time and again proved that they are no less. They are moving forward in very field and shining high. Whether it's Olympiads, Inter school Sports competition or National Recitation Competition, they have proved their mettle

Our Prize Winners
